# CHAIRMAN'S DESK

**Mr. Sanjay Tomar**

Chairman,  
Holy Public Group of Schools

Young minds need not only a disciplined direction but also an exercise that is mandatory. Here, at Holy Public Group of Schools, our aim is to create not only an ideal mind but also an individuality that may bring progressive change in the whole society.

Our students have not left any stone unturned, either in academics, sports, games or at state level they have been hoisting the flag of success.

I know that the competition is tough in the present but we try to bring their hidden talent out so that they may touch the new horizons in their respective fields.

Proving our competence from the last 40 years, we have come a long way in nurturing bright learners. With perfect ambience at Holy Public Group of Schools, children here get a home away from home. Kids are allowed to explore their interests because as we say, “The more you explore, the better you learn”.

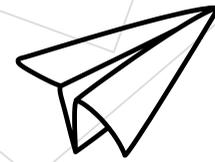

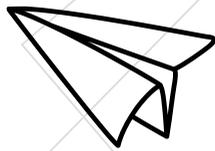

The interest in learning is created by the teacher; the intent of learning is the power of pathfinders.
